BRITAIN WILL EXPLOIT HER INDUSTRIES

LONDON, Eng., Oct. 25.—The brilliant idea of sending forth upon the waters a great imperial floating exhibition has at last materialized into something more than the ship of the S. S. British Industry. It is now more than 15 years ago since the voyage was first made, and during all that time, with the exception, of course, of the war years, the project has been discussed, but nothing tangible has ever come of it. The promoters of the enterprise have formed themselves under a limited liability company, under the name of the British Trade Ship Lines, and arrangements have been made for a complete and lengthy tour of the British Empire, with ports of call in every continent, participating, and their samples will be carried and shown in all the Seven Seas.

The most magnificent exhibit of all will be the great ship herself, for she will be specially built for the purpose, will be unique, and fitted with engines to do the top work of the British workmanship at a very high level. She will be of 20,000 gross tons, may be 25,000, and will be built from any other ship which has ever taken the water. She will have no less than eight decks, and half of this accommodation will be given over to the exhibition itself. In addition to these four decks of exhibition space, there will be many other trade representatives, and also a large reception hall, with the chief exhibition offices in London, a bank, an insurance office, interior decorations, and a cloakroom arranged round the hall, from which will open a large restaurant and a tea room for 500 people. Practically the whole length of the boat deck will constitute a reception room and a room with dining and for 500 persons. There will also be a hall used for exhibition purposes and for showing manufacturing processes.

Ambitious Itinerary
Sir G. B. Hunter, the vice-chairman of the British Trade Ship, Limited, is incidentally the chairman of Messrs. Swan, Hunter & Wigham Richardson, Limited, who are responsible for the

The voyage to those fortunate

MR. W. S. BALL UNANIMOUS CHOICE OF GOVT SUPPORTERS

Representative Gathering Decides
Elect Mr. W. S. Ball as M.P.
for Lethbridge

At a convention at the Masonic Hall Tuesday afternoon, which lasted a few minutes over an hour, W. S. Ball was unanimously nominated candidate to contest the election of the Lethbridge constituency in a summer by-election. The only other name submitted was that of C. J. Jamieson, who after alluding to his name to go before the convention, as the chairman understood it, withdrew his address which he, along with Mr. Ball, had written to the convention. Both men were ballot for Mr. Ball. On Mr. Ball's nomination agreeing to withdraw his name from the ballot, Mr. Jamieson explained this by saying that he did not hear the question put.

enough to participate will be a great experience. If I am not mistaken, on the same scale as the keenness of the promoters, the result: British trade should be beneficial to extend the market for our products.

The voyage is timed to take about 1½ years, during which time not less than 43,000 miles will be traversed. The time-table, which will be prepared, allows a stay of a month in a foreign port.

This will mean that the exhibition will be open to the public in various countries for a long time.

The idea throughout has been to reduce the actual sailing time to a minimum and trade routes will therefore be chosen in accordance with their relative geographical position.

Another important consideration will be the cost of the voyage. It has been the desirability of keeping the exhibition right up to date, and to insure this, arrangements will be made for the latest news to be sent to the ship at any particular point. This plan will also insure exhibits appropriate to the countries visited being shown.

This most enterprising experiment of sending out to the four corners of the world a commercial exhibition housed in a magnificent 30,000-ton steel and copper equipped vessel, to be kept up to date, will be a commercial community all over the world with the keenest interest and any unusual measure of success attained by the voyage will be sure to follow on a lesser scale by many imitators.

Many of the schools in the Province of Alberta are contained in the report recently issued by the Superintendent of Education at the Provincial headquarters in Calgary.

It shows that there are approximately 18,000 Junior Red Cross members in the schools of the Province.

Many of the schools in the Province, which are not members, have been awarded the certificates for 70 per cent. membership. The new school year has opened and now all being constructed in their districts. Their work is all for the sick and crippled children.

The work of the Red Cross in the Province, which parents cannot afford to give them the best medical treatment necessary for their cure. All that the people may grow their own food.

When discussing the position in Russia it is well to bear in mind that the country is still in a state of semi-anarchy, and even though, and until now but the poor in Germany are exempt, if the statement of "Varvarus" may be accurate, the Hohenzollerns were from the former kaiser to the youngest son of the extended house, have not been taxed at all.

It is a well informed journal, and, in contradistinction to some of the Left press organs, it does not allow its statements to be accepted without accuracy; therefore its statements in

this respect may be received with credence.

The reigning family, and indeed a number of noblemen were from the moment of the outbreak of the war, but the last month only terminating with the monarchy three years ago, when the decision may have influenced the government to issue a decree that the royal treasury, which was the property before the government commissioners for discussion, it was ultimately decided that the same should remain in abeyance for some time. It was hoped that the same would be received as private property, and it would be known was private property of the Hohenzollerns and what it was not. It was announced, and in this arrangement there was a skilful claim that the property should be held in trust, so that the Hohenzollern family would have amounted to a sum of money.

It is a natural desire in Europe to have the troops remain as long as this government feels that they can be kept in Germany. Some time ago, however, the administration, out of consideration for Germany, desired to remove the financial burden of the American troops as quickly as possible after peace was declared, but it had been learned since that Germany is far greater than any nation in Europe, and in this arrangement there was a skilful claim that the property should be held in trust, so that the Hohenzollern family would have amounted to a sum of money.

In Holzhausen, Westphalia

In reality it is little known, says "Varvarus," that the former Kaiser's household administration, as it is

strangely enough still styled, has

acquired control of the household

administration of the crown.

It is a natural desire in Europe to have the troops remain as long as this government feels that they can be kept in Germany. Some time ago, however, the administration, out of consideration for Germany, desired to remove the financial burden of the American troops as quickly as possible after peace was declared, but it had been learned since that Germany is far greater than any nation in Europe, and in this arrangement there was a skilful claim that the property should be held in trust, so that the Hohenzollern family would have amounted to a sum of money.

It is gratifying to this government to know that the troops have made so good a record in Germany and that they have been useful in the work of reconstruction.

The usefulness of American troops in that locality is not yet clear.

There is no place for docking and repairing for many days.

Three hundred and fifty-four days after leaving the land of the Maori the British Industry will point her nose northward, and the voyage of the Pacific will then be visited.

She will be of 20,000 gross tons, may be 25,000, and will be built from any other ship which has ever

taken the water. She will have no less than eight decks, and half of this accommodation will be given over to the exhibition itself.

She will be built in Australia, and will then proceed to South Africa and will turn at Cape Town and Durban in Natal. From South Africa she will sail for far away Australia, where her arrival is expected to give a great and lasting impression.

A Long Voyage

The place to be visited in the Commonwealth will be Fremantle (Western Australia), Adelaid (South Australia), Hobart (Tasmania), Sydney (New South Wales), and Townsville (Queensland). New Zealand will be the next Dominion to receive the ship of commerce, and will put in at Wellington, and then sail for the land of the Maori.

McLAUGHLIN

OBITUARY

MRS. HENRY BROSIUS

Brosius, died at Macleod on Saturday, October 22nd, the immediate cause of death being heart trouble.

The deceased lady's maiden name was Henriette Fichttmann and she was born in Saxony, Germany on No-

ember 25th, 1872. In 1892 Miss Fichttmann came from her old country home to Canada and settled in Macleod where she married on July 31st of that year to Henry Brosius. Mr. and Mrs. Brosius came to Canada in 1902 and

have since resided on their farm six miles northwest of Macleod.

Mrs. Brosius had been in ill health for the past year. She is survived by her devoted husband, two sons, one son deceased, seven sons—Henry, Arthur, Harry, John, William and Edward; and three daughters—Mrs. T. Cooper and Misses Ellen, Irene and Anna all living at or near Macleod.

The funeral services were conducted at the home of Mr. and Mrs. T. Cooper, and many mourning friends followed in the funeral procession to the Union Cemetery, where interment took place.

MRS. MARY A. STOREY

Mrs. Mary A. Storey died at Macleod on Saturday, October 10th, from extreme age.

The funeral occurred on Tuesday, October 13th, services for the departed being conducted at the Presbyterian church by Rev. J. Kennedy, and a great number of mourners followed the funeral procession to the Union Cemetery, where the last rites for the dead were performed and interment took place.

Mrs. Storey was born near Kemptville, Ontario, on December 28th, 1832, and died in her 89 year when death occurred.

Mr. and Mrs. Storey came to Macleod thirty years ago, since which time they had ten children, twelve grandchildren, and five great-grandchildren. Mrs. Storey made her home in Macleod, where she died, surrounded by this love. Four of their ten children live to mourn their departed mother—James G. Storey, Macleod; Mrs. W. E. Storey, Macleod; Mrs. W. F. Storey, Hemelholz, Ill.; and Mrs. T. G. Stockton, Macleod; also four great-grandchildren.

Mr. F. C. Voigt, Queen's Hotel, Rapid City, Man., writes:

"For the last few years I have been a student of health, insomnia, nervous debility, insomnia and allied troubles. My health became so bad that I decided to travel through Europe. Loss of appetite and sleep made my condition unbearable. I purchased a 3 B. L. Canadian saddle, though only used, and a short time later obtained remarkable results. My appetite has returned, and I am now enjoying health much better than I have had for years. I regard it as a Godsend."

If people only knew what Internal Health does for them, for thousands of others, fewer pills and laxatives would be taken and very much less suffering from insomnia, nervous debility, insomnia and nervous troubles resulting from it.

It is believed that by constipation of the sound sleep and good appetite so essential to health and vigor, you should lose a day in traveling yourself off the beaten track, and the hundreds testify have meant for them a new lease of life.

The Canadian saddle is the only perfect appliance for internal bathing. It is shown and explained at A. D. Price's, 102 Main Street, Macleod.

Write to them free of charge. Man of Today is Only 50 Per Cent Efficient—or telephone or write to Tyrrell's Hygiene Institute, 165 College Street, Toronto, Ont.

CARDSTON NEWS

Mr. Farrell of Maple Creek arrived in town last Monday on a business visit.

The Alberta Stake will convene next week.

Kenneth Shaw, the second oldest son of Mr. and Mrs. Vernon Shaw, left last week for Lethbridge to join the R.C.M.P. From there he goes to Regina for a month's training.

Ten delegates were present from Cardston at the Farmer convention last week. Those in attendance were: Mrs. W. A. Buchanan, Mrs. Thomas Anderson, Mrs. John Archibald, Moses Anderson and W. A. Keith.

On account of personal interests becoming too large, Mr. R. B. Anderson has found it necessary to sever his connection with the Cardston U.P.A.

Business at the local U.P.A. store has been very good, that of last month being over \$15,000. This month has also been very busy.

The people of Cardston are quick to recognize merit, no matter what it feeds. They are a friendly lot of friends in the Temple City. His high sense of duty, his unimpeachable character, his public and private life, insure him many votes that would otherwise go to Mr. Keith. The fight

is on.

THURSDAY, OCTOBER 27, 1921

One upon a time in the days before Jesus, Lord Jesus called his own to him and before them a tactical problem which amounted to a statement of the manoeuvre attempted by Admiral von Scheer, when the German fleet made its last bid for the command of the seas and the world. He said, "If you meet such an attempt, every man spread that the best way to act would be to sacrifice with Lord Jellicoe's ultimate aim to attain the victory of the aggressor." He said, "you are undoubtedly right, but I suppose you realize that

.00 acres, and Murphy Bros., 1,400 irrigable acres, are the interested ones in Eweme.

Mr. E. Bolme has leased half a section of the Thompson ranch.

Mr. MacLean of Calgary, cattle and sheep buyer, paid a visit to this section recently. He paid 2 and 3 cents per lb for cattle and two dollars and a half for sheep—hard to pay one's debts at these prices.

An auction sale was held at the old site of the Norman Chapel. Needless to say, everything went very cheap.

Mr. D. Woodruff arrived home on Saturday with Mrs. Woodruff and a baby boy.

Mr. H. Mooley is expecting to bring Mrs. Mooley home on Thursday with their first child. Mr. and Mrs. Woodruff and Mr. Mooley.

Perhaps we should sympathize with them, considering the cost, when we look at the price of wheat, cattle etc.

E. Mooley and a number of friends drove down from Bellevue on Saturday morning. They report the mines were working short time.

Is pleasurable in the district, which is a good thing. Those that can will be able to hold their stock for better prices.

CARD OF THANKS

Mr. and Mrs. R. H. Bender wish to express their sincere thanks to Mr. and Mrs. MacLeod, also Dr. Pickard and Dr. Kil of Calgary, and the tender and loving nursing of the Macleod household for their excellent care of their beloved son, George, through her serious illness.

Mr. and Mrs. R. H. Bender

CARD OF THANKS

Mr. Henry ... and family, wish to thank many friends who extended help and sympathy on the occasion of the family's bereavement by the death of the wife and mother, Henrietta ... and the son, ... and to thank all who have attended the services, Rev. Mr. ... and the Rev. Mr. ...

IN MEMORIAM

STEWART—In loving memory of my dear husband, who passed peacefully away October 27, 1920. Ever present in my memory.—Jeanne Stewart.

EWELME NEWS

We received the first assessment notices of the South Macleod Irrigation District last week. We are pleased to see that it is fair. All interested are looking forward to seeing the work commence. D. Woodruff, 40 acres; H. Mooley, 90 acres; M. Billy

... and others. We are pleased

to see that the irrigation system

is progressing well.

The bridegroom was Miss Edith Alice Thewlis, sister of the bride.

The bride was a delightful fresh young girl, blue eyes, blonde hair, pink blue georgette dress with pink and white stripes. She carried pink and white bouquet.

Little Miss Lily Arthur, dressed in white embroidered silk and carrying a pink rose bouquet, was the maid of honor. The bridegroom's father, Master George Stark of Edmonton, donned a Little Lord Fauntleroy suit.

Mr. J. Arthur supported the groom and Mrs. Wester was Miss Foster and Miss Nicholls.

Miss Thewlis' mother, mother of the bride, wore a beautiful gown of navy blue peau-de-chinch handomely embroidered in white and tomato, with navy hat.

After the ceremony the guests to the number of forty sat down to a sumptuous meal had at White man's Inn.

The newly married couple left on the 22nd northbound for Edmonton where they will spend their honeymoon, after which they will reside on the groom's farm at Dunstable, Alta.

Cummings was at once removed to a residence close by Dr. Dubugeon and Dr. Clegg was called in and in attendance. After a careful doctor described the injuries as very serious, and Dr. McAlary of Lethbridge sent for Dr. P. G. Clegg, morning to perform an operation, but

it appears that Cummings was at

the coal chute of the mine with wagon and team getting loaded, when an iron bar struck his head, causing the team suddenly moved forward, knocking the unfortunate man down, both front and hind legs, and the wagon passed over his neck twice.

THE UNBROKEN LINE

We who have fled the borderlands of death,
Where courage high walks hand in hand with fear,
Shall we not hearken what the Spirit saith,
"All ye were brothers there, be brothers here?"

We who have struggled through the baffling night,
Where men were men and every man divine,
While round us brave hearts perished for the right
By chaliced shields stained with their red wine!

Let us not lose the exalted love which came
From comradeship with danger and the joy
Of strong souls kindled into living flame
By one supreme desire, one high employ.

Let us draw closer in these narrower ways,
Before us still the eternal vision spread;
We who outmastered death and all its fears,
Are one great army still, living and dead.

—CANNON F. G. SCOTT, C.M.G., D.S.O.,
Senior Chaplain, C.E.F.

LONDON ACES WITH LAUGHTER AT "ALF'S BUTTON"

Latest cable reports from London state that, notwithstanding the depression consequent upon the con-
quest of London, the British public, at least, is as gay as ever. Even Mr. W. A. Darlington's very clever novel, "Alf's Aunt," could hardly be played at the Alhambra Theatre without being followed by the full bath in Aberfeldy Street—Inspection afterwards." Such was nearly the experience of the Alhambra, where the curtain on "Alf's Button" is being shown at almost every movie theatre of and consequence in London, and where the biggest laughs of any film re-
clined in England, and has only just started.

Leslie Henson and Alma Taylor, who play the leading parts are both very well known to British theatre goers, while George Caruso takes the part of Alf's Uncle, and the matinée music mastermind behind the scenes of the British stage.

One boy golden, 2 white hind feet, wire cut on right shoulder, brander X on right thigh.

One aged bay gelding, brander X on right thigh.

One iron grey 2-year-old, filly, weight about 600 lbs., no visible brand.

One aged bay mare, black mane in forehead, left hind foot and right front foot, brander X on right side.

One aged grey gelding, brander X on right thigh.

One iron grey 2-year-old, filly, weight about 600 lbs., no visible brand.

One 3-year-old black, white, star in forehead, left hind foot on left shoulder.

One aged bay gelding, brander X on right hip.

One 3-year-old black, white, star in forehead, left hind foot on left shoulder.

One buckskin stallion, 1 bay mare, 1 grey mare, with foal at foot, all brained FV on right ribs.

Max Brand wrote the story, and the direction was in the hands of Henry Koker.

"ALF'S BUTTON" A SCREAM CLASSIC

Cecil M. Hepworth, whose film version of W. A. Darlington's clever novel, "Alf's Button," is causing so much comment just now, is certainly no neophyte in the art of comedy.

The story is a tense, thrilling, dramatic plot based on a true life history, to discover the mystery surrounding her native village to the point of revealing even more baffling.

The luxurious surroundings of a gambling house where fortunes are gained and lost on the turn of a card, form the background of the picture, and the staging and costuming of this picture are superb.

One 3-year-old roan gelding, weight about 600 lbs., no visible brand.

My Secrets Of Charm

(By Marilyn Miller)

A famous actress once said that "dirt" was nearly as misplaced matter. Be that as it may, the modern woman who is careful of her appearance will find the same true of hair. Hair when it is underdone is a definite detriment to powder or liquid form has been used.

Dupillaries have always been. From the old Roman days, when every woman ought to be beautiful, there has been a constant striving to make the beauty of the body the beauty of the hair. Hair when it is underdone is a definite detriment to powder or liquid form has been used.

But no dupillaries have removed the superfluous hair permanently. In fact, every woman ought to know before attempting to take off those superfluous hairs that the hair grows back more often it is used the stronger will be the next growth. The hair is like a tree; if you cut off a branch, a certain amount of strength gives properties. When the hair is cut or broken at its base, which is the cause of the new hair, it is broken back into the real root below the surface, and the new hair grows back twice as fast. That accounts for the bristly effect that results from shaving or when the depilatory is used.

Electrolysis is considered by many beauty doctors as the only sure method of removing the superfluous hair. But they are not open to operate on the patient only when the patient submits to the treatment at her own risk. A few years ago, electrolysis did not guarantee their methods of electrolysis, but at best the process is always dangerous. Scars may result from its use.

A woman beauty doctor who has studied the growth of superfluous hair for over fifteen years has found a removal of it is her life's work. She has perfected a method that is perhaps the best in existence.

The doctor is in a small socket known as the papilla. The root of the hair merely touches this base, but far from this little base that the strength of the hair is obtained. So that, in order to remove the effect by getting down to the rock-bottom of the hair, the hair culturist has found this way of opening the pores, grasping the root and pulling it out, leaving them with one movement.

A small cake of fragrant green compound resembling a cake of soap is broken into bits and placed in a small enamel pan. The surface to be cleaned of the hair growth is prepared by powdering it with a fine mesh powder. The hair culturist then applies, to absorb any moisture that may keep the pores from opening during the treatment.

How to spread onto the skin with a spoon, always smearing it in the direction of the hair. On the arms the direction is downward and crossways, as the hair grows in that direction. It is only necessary to stimulate the growth for a moment or two before applying to determine its general direction.

The warm substance, which resembles a paste when heated, is spread on the paste when heated, is spread on the skin.

When quite dry, the end is grasped firmly between thumb and forefinger and with one quick motion is removed. An instant after the removal of the surface of the clean skin now and allowed to dry. Then a layer of cold cream that is fluffy and soothing is applied.

The cold cream remains until the stinging sensation that may ensue is entirely gone. This is a thin, absorbent cotton and a thin layer of the antiseptic talcum dusted lightly over the skin.

Shaving to remove the superfluous hair should never be used as a preventive. For the girl who is foolish enough to shave her hair off, she will within a short time that the hair, instead of becoming devitalized, will take on a greater and stronger growth with each operation.

The same process gardeners use to stimulate the leaves of a plant by cutting them off, stimulates the hair from last season, they are the first thing to consider. In place of this, however, the hair culturist uses a layer of talcum powder to break the hair of the Orient.

The same frock of babies.

The hair culturist has perfected this modern method does not guarantee that the hair will not return as soon as the hair is cut again. But she does guarantee that the hair will appear finer and finer at each successive growth, until at last it loses its strength altogether and no longer grows.

The Winter Bed

(By Lorito C. Lynch, an acknowledged expert in all matters pertaining to household management.)

With the advent of cooler weather, every housewife is going over both beds and their furnishings with a view to making them comfortable for winter. For, while we may enjoy a nap on the couch with the nearest sheet drawn over us in the summer, in the winter we prefer warm, comfortable furnishings will be wanted.

In addition to our large housekeeping shops sheets of shells, pillow slips and blankets, as well as comforters, are being turned out. Before making up her mind as to what should go into a winter bed, a woman in charge of a home should go carefully through the catalogues of the bed. Then let down reminders.

To make a bed, first be sure that

the mattress is other side up from what it was the night before. Turning the mattress keeps it from becoming worn in one place. You may notice that you can turn the two sections to facilitate turning. In buying a new mattress or having the old one mended, remember this.

Buy a new mattress and under the lower sheet. Have under sheet right side up, broad hem at top. Have second sheet wrong side up, hem at bottom. The sheets have middle crease exactly in the middle of the bed.

Buy a new sheet the width depending upon whether you are purchasing the sheet for a single or three-quarter or a double bed.

Buy a sheet which is one and three-fourths yards long to enable you to properly tuck it in around the mattress. In buying sheets, remember the size needed for your presence.

Put the blanket on the bed, lay the top sheet flat to keep the blanket clean. Both sheets and blankets should be tucked in with the corners tucked in, so that the corners may be turned in the sheets as the spread is made.

If a pillow is clean and smooth and lies square upon the bed, it adds greatly to the comfort of the bed. Therefore, be careful to purchase pillows that are a good fit for the bed.

If a confederate is used, roll it neatly and place it at the foot of the bed.

Have the salesman show you a comb and a brush, and a hair net, these are light in weight, but give much comfort on cold nights.

Buy a few small, simple styles in clothing, do not go out of style. It is therefore advisable to have a goodly stock on hand, at least a dozen sheets.

All-wool blankets are an investment. Buy them at a reliable shop and then take good care of them. They will last for years.

AND NEXT THE RUSSET FIELDS

Here is the watershed of all the years, where a thought's space, thoughts do start anew.

That fare most wily forth; some to the mouth of Ararat, some to the narrow South.

The peasant and wrinkled orchard shivers apace.

The blustery bear upon the English plain And noisy bows blow wild that, um distressed,

Another spring shall hide the cheerful nest.

All things are nearer from this chilly solitude, the white and boddling town;

And next the russet fields, of harvest.

Shines the new wheat that freshens all the morn.

And out the bursting milkweed, dry and grey,

The silken garments are launched

To mount the gulf, or drift from hill to hill.

And play new colonys by road and rail.

—Robert Underwood Johnson.

The Vogue For Big Sleeves

(By Rita Stuyvesant)

The frocks of this season are distinguished by their unusual sleeves, which are very full and rounded.

The strength of the stem is thrown back into the root, only to emerge a little later, as though it had been born before.

The theory is identical with the shaving process. And that, too, must be clearly understood, that breaks the hair at the surface of the skin instead of delving deep enough to attack the very foundation.

The hair culturist has perfected this modern method does not guarantee that the hair will not return as soon as the hair is cut again. But she does guarantee that the hair will appear finer and finer at each successive growth, until at last it loses its strength altogether and no longer grows.

Bobbie and His Pa

(By William F. Kirk)

Another Ottum is here, said Ma last night. I don't know if I shall spell it Ottum, but, Ottum, Ottum.

Yes, said Pa, for the Lord, I say, Ottum will be home in a month, I hope.

Then shall the flaming Maple breathe its tail of glory, said Pa.

Yes, said Pa, for the Lord, I say, Ottum will be home in a month, I hope.

I sent Bobbie a little deer, said Ma.

Pa's heart hant care to think of

Bobbie has got the ripe dots at that.

Pa. Why should we foolish cruff this, said Pa, for the Lord, I say, Ottum will be home in a month, I hope.

Our teacher said we shud laff & be gay, I told Pa, for the Lord, I say, Ottum will be home in a month, I hope.

Wen did Noss cum out of the Ark? I said.

Wen did Noss cum out of the Ark? I said.

Doant Bobbie, please doant, said Pa.

Never agenner to speak to that-fateful time, said Pa.

I didn't mark my differs to you,

Ma, said Ma. I alwars think that Natur is greeving over the hot Summer, said Ma, waving over the dead honny-suckel & departed, noted red Ma.

Yes, said Pa, but that is Natur's way.

Little of all earthly things lasts very long, said Pa. The Rocky Mountains has a long and wide range, said Pa, but even them will dis-appear in the course of the centuries, Pa said, & became dusst with the age.

Let's tell riddles or sumthng, said Pa, for the Lord, I say, Ottum will be home in a month, I hope.

For saints in with the Lord, sing

ZIP & GIGI, JIM & JOE.

For them, the Lord is stamp'd in Woe.

CLEARING OF SEA MINES PROGRESSES

(Continued from Page One)

interior transmitted these warnings to their respective governments with the least possible delay, and the result was that many more moved to Cardston than to Lethbridge.

Not one report has been received of the arrival of a mine-clearing instrument, although the committee's instructions were to have it ready by October 1st.

The first report was received on October 13, 1921, from the government of Canada comprising all that portion of S.W. Quarter, Section 5, Township 21, Block 1, West 2nd Meridian, lying west of the Canadian Pacific Railway, containing 50.44 acres more or less as per plan registered in the Land Titles Office under No. A. O. 3221, copies of which can be seen at the District Office, Ottawa, or at the War Service Engineer's Office, Winnipeg, Man.

Plans can be obtained at the District Office or the Post Office, or the District Engineer's Office, Winnipeg, Manitoba, or at the Post Office, Regina, Saskatchewan.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of War, Works and Supply, or 10 per cent. of the amount of the tender, which will be forfeited if the tenderer fails to complete to carry out his bid as directed on the date of purchase if tender is accepted.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works.

Ottawa, September 16, 1921.

MAGRATH NEWS

Sarayrah had a fatal stroke of paralysis on the 18th while at work at the Robinson mine. He was brought home and Dr. Sharp, who attended him, said Sarayrah was a very young man to have such an attack and would recover quickly. This is evidently true, for the patient is

now around as usual and only feels a slight numbness of the parts affected.

Harry Orcutt of the Lease was in to market last week and reports his district as coming up.

Our old pioneer and fellow townsmen, the father of Magrath, the first postmaster of the village, John Rasmussen, who moved to Cardston his riding horse on the morning of the 20th last year, was thrown from his saddle, striking the hard ground with his head, receiving injuries to the skull and brain, and died before medical assistance could be obtained.

He died in the Tabernacle on Sunday last and many of the friends of Magrath, the first postmaster of the village, gathered around him to pay their respects.

One report has been received of the arrival of a mine-clearing instrument, although the committee's instructions were to have it ready by October 1st.

The first report was received on October 13, 1921, from the government of Canada comprising all that portion of S.W. Messrs. Rosser and Floyd at the Minor探險 associations met on Tuesday night at the residence of Mrs. Mary Watson and presented Mr. and Mrs. Rosser with valuable presents. The young couple recently formed a joint stock company. They have been active members of the organizations and have the best wishes of these as well as the entire community for a long, happy and prosperous wedded life. Delightful refreshments were served and dancing was indulged in.

Mrs. J. F. Cook, who has been ill for two weeks, is still confined to her bed.

Mrs. Wm. Dyer (formerly Miss Edna Gibb), of Portland, Ore., is in town visiting her mother, Mrs. J. L. Gibb and other relatives.

The young 14 skunks on the way and were glad to keep out of fighting range. They also visited the Big Ben Colony.

Grand & Davies shipped a carload of produce to Lethbridge on Monday morning, the third carload shipped this season.

The Women's Institute gave a very successful Hallowe'en party in the town hall this Friday afternoon. Games were indulged in and delicious pumpkin pie was served.

The Women's Institute will sell decorations for Thanksgiving, November 6, preparatory for Thanksgiving Day.

Mrs. J. A. Mercer gave a dinner party in honor of her husband's birthday.

Mrs. Frank Steele went to Lethbridge on Tuesday to visit his son, Mr. Frank C. Steele and wife.

Uncle Jack Bridge from the Lees went to Lethbridge last Tuesday to attend the government party convention.

Mrs. A. R. Anderson went to Burdett last Tuesday to visit her daughter, John Hamilton.

Miss L. E. Hart of Vernon, B.C., arrived in town last Saturday night on a visit to her parents. Mr. and Mrs. Wm. Baxter and other relatives.

The McIntyre Ranching Co. shipped 22 carloads of beef cattle to Chicago.

Wendell, the last carload, were in good condition. Robert Minion and Allan Bill accompanied them. The two men remained over to visit.

Mr. L. E. Phair has been appointed superintendent of the Presbyterian Sunday school to succeed Mrs. Mix, formerly Miss White.

Mr. and Mrs. Harvey Hart of Lethbridge motored to Magrath the weekend to visit Mr. and Mrs. Fred Howes.

There was a good turnout at the Presbyterian church service. E.V. Barrett delivered an able discourse.

Let us have a clean and above-board election. We believe in absolute freedom of thought and action in politics and religion.

The season of fires is approaching. Let us hope our fire insurance policies and buildings are well protected. Even if you do not buy yourself some luxury.

Don't send away for goods that you can buy as cheap or cheaper at home. The local merchants are prepared to compete with all mail order houses. Give them a chance.

Money sent never comes back to you, while money spent locally stays in your community.

The local merchant uses your produce, thus providing you with a good return for the goods stored paid \$700 in taxes last year.

Checkers is a game that is played on the square and aboveboard. It develops the thinking and reasoning power of the players. For those who want to learn how to play checkers, a good book is "How to Play Checkers." The advertising column of The Times is open to all the checkers on the board. The game is the best indoor game in existence.

It is a pity to see wretched gardeners covered with Russian thistles in seed. It is detrimental not only to the owners but a menace to all the neighbors. It is enough to seed one in your garden to seed all the gardens in the town.

Sugar, preserves and white-to-dit cheese milk their cows and make butter, keep chickens and eggs to eat, and be happy. There is no better place to live than in Lethbridge.

MISS A. M. WILSON'S

Reach & Co.

Another week has passed us by and we are still in the land of the living, and many of us are just living—that's all. We have discarded luxuries and think ourselves lucky to get bare necessities. Yet with blades of grass, succulent clover with a few wet crops of flowers, a few birds, a few bees, a few butterflies, a few insects, it can sustain life and make a living even a pleasure. Yet you can't make a step without a pot or utensil of some kind. We know that; hence the reason of our advertisement telling you we expect to sell Pure Aluminum Ware that same day for \$2.00. All you have to do is to get a coupon from the dry goods or grocery department and have your five-cent purchases or ever punched. When the ticket shows you have bought \$5.00 worth, then the next thing is to produce \$2.85, the cost of wholesale production at the factory, and add \$0.15 for profit and the remainder of the aluminum used. The ware with care should last a lifetime. The only profit we make is the usual profit on the goods you buy, whether groceries, boots, shoes or dry goods. We are going to see how things before another week is over. You will be surprised to learn you can spend, try and individualize. If you save more than you can afford, it will be a little pleasureable thrill that gives your heart to give a little child a piece of pie or a needy family a little tea or sugar, or if it doesn't burst your heart give a bag of flour.

Reach & Co.

IF YOU CARE

to follow the example of the discriminating, try a dinner, a luncheon or an after dinner supper at the Club Cafe. You will find viands, service and surroundings all excellent, and you'll not have to be a millionaire to enjoy them, either.

CLUB CAFE

THE LETHBRIDGE HERALD

LOCAL AND PERSONAL NEWS

Wear a poppy on poppy day.

Mr. R. F. Barnes was a business visitor to Lethbridge last week.

Mr. J. S. McMillan has left Macleod for his parents' home in Eastern Canada.

Mrs. J. D. Matheson was the guest of Mrs. W. S. Gray of Lethbridge for a few days this week.

Dr. Farnett and Mr. C. P. McGladney went on a shooting trip on Wednesday but left the Stoney Country.

Mr. G. Coote, the Farmer candidate for the forthcoming Dominion election, was a visitor to Macleod this week.

Wilson Young, who has been confined to his bed for the past week, is recovering and hopes to soon be around again.

Mrs. Kaiser of Edmonton addressed a meeting of ladies in the town hall, Macleod, on Thursday afternoon in the name of the Canadian National Irrigation District, together with Mr. Houston, secretary of the Irrigation Council, Lethbridge, and Mr. McLean, the irrigation engineer of the district, with reference to reclassification of certain portions of the district as to its water needs.

Macleod is unfortunate enough to lose another of its bright young men this week. Mr. George E. Clark, from the Bank of Montreal in Macleod to the Edmonton office. Mr. Young was born in Macleod and Mr. Clark Young, was very popular with the younger set in town and carries with him the best wishes of his friends and acquaintances in his new sphere.

Mr. Clark, from Macleod to the late George E. Clark (his brother), of Strathearn Horse, who was killed in action March 20th, 1918, in Gallipoli, Turkey. The British War Office issued by the British War Office to next-of-kin of those killed in the Great War.

The G.W.V.A. had a most delightful function last night when the Macleod Hockey Club held their first annual dance. The hall had been beautifully decorated for the occasion and no effort spared to provide a gay evening. The music provided by the famous Ryan orchestra left nothing to be desired. A number of features of the evening were the smartly dressed young fair volunteers who came to the aid of the hockey club in obtaining and dispensing the refreshments. A heavy feature of the entertainment was the supper hour and ministered to the hungry guests. Taken all in all the dance was a success and a good time was had by all.

The next dance held by the Hockey Club will be during November and is being eagerly awaited.

The Macleod Hockey Club wishes to take this opportunity of thanking those who were so kind in assisting to make the dance such a success.

Rev. A. E. Lane Samson, incumbent of St. John's Church, Pincher Creek,

**COMING EVENTS
FORESHADOWED**
G.W.V.A., MACLEOD, FALL
AND WINTER PROGRAM

No pains are being spared by the G.W.V.A. in making preparations for this season's social activities. The masquerade ball on Halloween will be in the nature of an opening event. The committee are arranging supper, musical, dancing and singing programs for a "night of nights," so far as enjoyment is concerned.

Prizes will be given for the best entries. The first event will be the military ball on the evening of the official holiday, November 7th. Come and wear your uniform.

I. O. O. F. DANCES

The Oldfathers are holding a series of dances this winter, to take place on the following dates: Nov. 16, Dec. 2nd, Jan. 11th.

The Methodist Ladies' Aid sale of Christmas gifts Dec. 10th. Further announcements later.

The W. A. of Christ Church will hold a sale of work and satin on Saturday, Dec. 11th, at 3 o'clock.

A Tea Festival will be given by the Catholic Ladies' Aid in the Veterans' Hall on Wednesday, Nov. 2nd, from 3 to 6 o'clock. Admission 50 cents. 34-1t

"In Flanders fields the poppies grow." Don't forget, on Armistice Day.

BRITISH OIL
ALMOST UNLIMITED

LONDON, Oct. 22.—While the United States has remained content with home stores of oil, Great Britain has been scouring the world for new sources of supply, and as a result, according to Mr. Bertie, an expert, Great Britain has just visited most of the British oil producing areas, Great Britain need no longer feel dependent upon foreign supplies isolated in the event of war.

Thomas has been speaking to the London Chamber of Commerce. The American, he said, had been spurned with their mineral resources and had skinned the cream of the oil market, but the time is now, while Great Britain had entered the world markets when oil values were high. Indicating the value of the British oil export, he said:

"British corporations own or control considerable acreages in mid-Continents, and in South America, Africa, as well as important and proved and potential oil fields in the Dutch East Indies, Persia, Mexico, Russia, Bengal, India, Australia, Venezuela and Colombia. Within the Empire and in mandate territory, British capital is developing important oil fields in Burma, Assam, the Punjab, the East and the West Indies, Canada and Egypt, besides controlling uner-
